Jeffrey

attached: Movie Room Upgrade Proposal with Larry's comments

Please note the following

Rich has not yet Negotiated this proposal.

Proposal Includes:

Klipsch Palladium Series center channel speaker

Remote control has similar functionality to Logitech Remote, with the add bonus it can handle the Sony 4k media player. At present you have a Tablet to control Media player and a Logitech Remote for Apple TV, BD etc.

=div>Larry indicated you were considering running L&R Front Highs

Constellation Audio advised, McIntosh MX121 has 7 channels, if you wish to run L&R Front Highs it would require giving up a back Surround Channel.

Existing Sony Receiver is 9.2 ch, with 4k Resolution pass through and upscaling.

Are we on the right track regarding equipment and should Rich proceed with price negotiation?

regards

Brice Gordon
