Jeffrey,
I ordered the autopilot computer for the Bell 430 thru Bell Helicopter=. part just completed bench recertification and will arrive in Palm Bch on=Friday,. The #1 AutoPilot computer installed in the heli is working f=ne,. and posses no issues to safety of flight.

#1 Bell Helicopter outright exchange $20,400.00 (with No =ill back of our old unit).
#2 CRS Supply $23,475.00 exchange unit,. 5 day lead time. <=div>
#3 Outright Purchase from Honeywell $72,100.00
#4 CRS Supply $18,750.00 (possible Bill back if our old unit is B.E.R.="Beyond Economical Repair" .
Core Value of Auto pilot computer is $85,000.00

Best scenario is Bell's AP computer for $20,400 exchange with No B=ll Back.

is this approved?

thank you,
Larry
