did you hear =rom david gergen?

i talk=d to the director of harvard real estate.

it seems the kennedy school is doing some renov=tion.

for this=time they are recapturing most of the space in one brattle square (our building) to=use as swing space until their renovation is done.

in 2017 they plan to give up the master lease of one brattle.

it is very strange that they want t= replace us for swing space and on such short notice.

can i call you?
