I =rote you a Skype message, hope you've seen it.

Wanted to say you everything on a menu, just if you have time to =hink about it, sorry for using your time and attention, I am very =hankful

So , this is the task =f the days :
or I would say of the =ears

I =ant to go to New York or Paris , I don't think of New York =ecause Im so not believing in a visa , thats =ike an unreal dream for me .

So Paris is easier, much easier, and =nywhere is easier , when you satisfy the main things for the embassy =

you prove that you =ave sources (i usually take care of it with all fake bank papers and =alary papers)

you give them A GOOD reason to let you out with all the checks =nd payments

and you prove that you have accommodation

and then you prove that you will not =tay there or run away there.

Uzbekistan has a problem, everybody runs =way from there. thats why they are so strict.

Now, according to that, there are several ways which I know to =et a visa : study, work invitation, tourism (which is short term) , =arriage.

As I CAN NOT afford any of these ways, Im staying in [REDACTED]

trying to do my own work for a future,
now I got my school experience, and Im so happy to have a =omputer, that gives me so opportunities, but I still can not shoot, =ecause I don't have camera . I can't earn money on that =alent.

Thats why its sad to go to [REDACTED] because stuck =gain.

I =ecame so happy that I found what I like in my life, I want to study =rama, Im in love with cinema, I tried here so many times in school and =people loved me.

I dream to build up the whole movie and = have a brilliant script !
with all the self-made =usic and frames.

and the fact that I have a big dream so stable means a lot to =e.
thank you for that.

p.s. Lesley got me a ticket back on 23rd =f september, that was before stamp, so could you please ask her to =ontact me to change the dates of it , because I went to Turkish Airline =o do it by myself, and they refused, they told the owner of the agency =ho bought it should change it.

Im afraid to overstay not having a =icket back, because even in case of emergency I can't buy a new one, =ll I have is 40 euros.

and yes, a much bigger ass))))
