Russell,

I am not =oncerned with the credit as we will need to use them to refurbish =nyway and we can deal with that later.. I am simply asking why we have nothing done at all on one =enerator... and no info back We =re on the same team and I thought you were advised that if something is =ot going to come again as you promised, it should be you that reaches =ut and says still not here... Jeffrey called me and asked if i had seen anything.  
Both of us were surprised that not only had =othing arrived but no word of explanation from you was forthcoming..

Richard

I contacted them on getting our 3rd day back last week  
We have been speaking to them since they left LSJ requesting a new proposal  
The regional director is a friend and I spoke to him 2xs over the weekend  
The part was not available in PR or Florida not sure where you are getting the 3 hour delivery

from =

Obviously we are chasing these answers on a daily basis  
We have also been pushing this am to get these answers

Russell,

More than 5 weeks have gone by since you and mark said no worry the local president of Caterpillar was a friend.

First they couldn't find time, then they said 3 men, three days and say up front which you admitted was premium billing.

Yet we followed your lead and were then told no good reason why the second generator couldn't be made to start.

They could have had parts shipped from PR in 3 hrs...

Then we are told end of week for numbers and on Saturday still nothing.....

I'm sure you are aware that this is not helpful and without a doubt not how we do business.

Jeffrey should not again have to chase answers...
