The cost of the fabric from Zuber below is \$ 3600.00 per panel. I have =alculated that we would need 6 panels for our dining room table which =dds up to \$21 600.00!

The upholsterer who John and Jim (the wall people who couldnt do our =stairs) recommended as the best went to Zuber to look at the faux =eather for use on the dining room table and had the following concern: =he seams where they would stitch it would be on the top of the table, =s it only comes in a certain width , and this would be very noticeable. =he material is quite heavy and she was worried about how it would =rape.

I can go to a different upholsterer and continue trying if you would =ike? The net cost for the amount of the faux leather we would need =ould be \$ 7718.4.
