yes, the message is we have to make bold decisions regarding the best use for=the country of the unnecessary assets in public hands, and the wealth of intellectual talent at the universities which would form the base of both new technologies and businesses and focus our energies on green, technology and health.. (something like that)

i think you should use the reinvention idea, in a link with the universities. it would give you great cache= to have crafted an elegant solution that encompasses , many of the largest= problems, in combination with the assets at hand . I would add to nick= note, that we should not only look at real assets that the gov't shouldn't be holding , but the INTELLECTUAL assets, that are not being exploited.
