We can certainly make it look very similar to Chateau L'Horizon but first we have to define the functional spaces based on your personal needs which I am positive that are way different than Maxine Elliott's.

Trust me; Architecture cannot be copied just like that. And if we do, I'm positive that you will not have a positive result.

I know the look and feel that you are looking for but please keep in mind that "form follows function". Let's define function first.

<=ont style="background-color: rgba(0,0,0,0.5); color: white; padding: 10px; border-radius: 10px; width: fit-content; margin: auto; text-align: center; font-size: 1.2em; font-weight: bold; border: 1px solid black; margin-bottom: 10px;">Ramon Alonso
