Mr. Epstein:

Hope all is well. Just thought I'd reach out and see how =verything's going. I assume by your last email you've =ade it back to PB, though knowing you it's possible I missed =hat window already. I'm stuck in my bed in Dallas with a =errible bout of illness, but hopefully will be on the mend soon. I =ust admit, living with freshmen is really not my cup of tea. I did =owever learn today that I made the elite competition team for SMU'= Cyber Defense team so I'll hopefully be traveling to =ompetition in March/April. However, my teammates seem grossly =ncompetent so we'll see how far we make it. In regards to my =ducation, I've decided to take matters into my own hands. I =ave started working privately with instructors in Mathematics, Computer =cience, and soon to come Mandarin Chinese and Biology (with a focus on =volutionary and Plant Biology is the goal). I find the 1-on-1 =nvironment works better for both my visual impairment and my mental =anity at large (stupid questions aren't my happy spot). I'= hopeful to graduate in either August or December from SMU depending =ow my medical state stays in check (not well at the moment).   If you =ave any time over the next few months I'd love to get in touch =ither in person or by phone/Skype/etc (the world of possibilities is =bsolutely endless in that realm….. someday we will conference =y Virtual Reality…. quote me on it).

All the best to you and yours.
