Dear Jeffrey,

We have spent many hours of critical design thinking with regard to the divan center arm rest.

I am happy to report that we believe we have come up with a great design that is simplistic in detail and will "finish" off as looking and working "right" and not some hokey afterthought.

We have created a partial working mockup and I am very confident that we have found a great solution.

Additionally, we will be able to provide a small storage area for your glasses, pens, etc...

Lastly I spoke with a representative of the divan manufacturer who is confident that we can make this modification with only a "minor" affect on the divans certification.

I will be sending you an e-mail shortly that will have photo's of the arm rest mock up we propose and I believe you will be quite happy.</=pan>

With regard to the one (1) switch that cyc=es through the audio sources, I would be more than happy to represent your interest and discuss the best solution with Thomas at Sikorsky as although they are talented, they do not seem as versed as we are at outside the box thinking.=A0 I am not knocking them at all, I just feel that my influence may be to your benefit at finding an acceptable resolve quickly. It's your call if yo= want me to help in this area?
