i think we have divergent views on Trump and trade for obv=ous reasons

the best economists say all-out trade=war will cost the WORLD 2-3% of its GDP

this can =ardly help the stock market

but the "perturb=tions" are meat for you—if you can see what to buy and sell a=ead of time—or very quickly—in response to the latest tari=fs you can beat the system

TIA-CRF can not

<=iv>

in good times, it does better than average—here =t does distinctly worse—each hit is taken hard, each recovery is f=able—precisely because it does not change its portfolio or only sl=wly
