Subject: WA and SY

Good dinner with them. They both seemed to understand the importance and power of SY speaking out. And they were both filled with devastating stories =about Mia (did you know that when she was with Frank she had an affair with=Polanski?). But today Woody seemed to have cold feet and said he didn't want to take down Mia. So a bit more work to do. But interesting news is =that they really do seem to have enough to take her down.
