Dear Jeffrey,

We have fabricated a headrest that we believ= looks very nice. We suggest two (2) as the middle one looks a bit awkward in our op=nion.

The first two (2) photo's attached show th= headrest we came up with.

The sencond two (2) photo's show the same =eadrest elevated higher by .75" if in your opinion you want the headrest to be taller.

If you do want the headrest to be taller, th=n we will "fill in" this .75" gap with foam.

Either way, the foam headrest will "sit"=tightly against the top of the back cushion with out any gap.

Please comment so that we can move forward.<=span>

Larry, the cockpit maintenance runner is the=closet color to match the leather as offered by the vinyl manufacturer. I think that the=color is a very good choice and that it should be left as is.

Please call me when you have a moment.
