yes i did,, You need to either be on site, or work with a ph=to. , we might need to add planters. I have tried to do this from a distan=e , it does not work. the new sketches are appreciated. however i dont=think they work . maybe we need a diagonal,, there is a opening to the bea=h at the end of the path , and these sketches focus your attention on that=, the opening is not in the drawing therefore misleading. when will you=have an hour or two .?
