everything is fine

very grateful for yo=r backing on the Honour Killing work, now starting to take off—som=one at UN saw it and may want to issue some kind of UN statement on the su=ject, citing my work—within a year i will produce a short book

it confirms what you so memorably said—i shou=d concentrate on what i do best and am famous for—kind of reassuri=g that the brain still works, a bit slower but what the hell

will shortly contact John re his son Max perhaps represen=ing me—appreciate the word you put in

sho=ked—i say SHOCKED—that i actually lost money in the market=tast week, trust this is only a 'perturbation'

off to Chapman March 20—all signs are very good

hope everything is fine with you
