Yes I read the article by Stephan. It was very nice of him and I agreed with him. I thought it was very well written and proved his point. In regards to the interview, Woody said he's going to run it by his people. Thank you

Dear Soon Yi,

I read the article published by Stephane Célérier , Woody's distributor in France in the magazine le Point this week.

I hope you have received it with a translation.

It's an excellent article and lot of people have read it and talked about it.

Le Point is a well respected magazine , a kind of Time magazine. The Chief Editor -Sebastien LeFoll is a friend of our family. He would like to come to New York and interview Woody.

Can you ask Woody if he would be interested to give an interview in the French Press? The Journalist agrees of course that Woody reads the entire text before it would be published.

All the best,

Caroline
