Jeffrey,

In the library system I used an adapter that plugged into the Tuner input o= back of pre amp,

Take that RCA adapter to 1/8" pin adapter and plug it into the MAC lap=top headphone jack, then plug into an "open audio IN" on back of=pre amp. That should work...

Or:

At the mac store or a Radio Shack, you need to convert the 1/8" stereo=head phone jack in the back of the lap top to stereo RCA jacks (red &=white), then plug RCA jacks into back of pre amp, audio IN, and plug the=1/8" pin into headphone jack of lap-top.

Thx,

Larry
