Attached photo's of MB Flo=r

We removed a=small section of flooring this morning in the Master Bedroom

Both the sub floor and hardw=od are wet and there is mold. As you can see the subfloor has lifted from =he concert foundation/top of cistern.

We will need to remove a 12 x 12 section to complet=ly remove bubble, this does not include the area underneath Canonball Clos=ts

I have a Fl=or Contractor arranged to view floor on saturday morning, for an Estimate =o repair.

How =o you wish to proceed?

r=gards
