Dear Sarah,

We went to Mr Eptein's apartment last wee= and made a complete overview of the system.

Before fi=alizing the estimate we would have a few question, could you please transm=t them to Mr Eptsein.

Music

S=nos system is really the best because it can work wireless. We counted all=the zone where you already had an audio access keypad. But in some bedroom= there are small hifi systems.

D= you also want to replace them by sonos. Or maybe later ?

D= we use the music stored on you mac (it means it has to be on to listen to=music, or do we propose a standalone server (1500 €) ?

F=r the speakers, the small JBL that are on the floor in the living room and=office look very small for those rooms. Would you like us to propose Floor=standing speaker (like B&O, because good sound and good looking)

Home Theatre

Since we can't run any new cable we'll try Wireless HDMI on the new projector. So we will also have to change :
DVD, Receiver, Screen (for a 16/9)
We'll use your iPad to control it

No question about the home theatre

Guest bedrooms + Master

Cables between TV and DVD are poor. Impossible to run new cables so 2 options :

1. We change the TV and DVD, but we still use analog cable (it will still be good quality)
2. We use wireless HDMI transmitter (approx 1000€), I think it's worth it for home theatre, but maybe not for guests bedroom
3. We use B&O TV with Blu-ray DVD included. Yes it is more expensive than other, but more beautiful too. Everything in one box. Only one remote control. 14000 € / each 40" inches. For your bedroom we could go up to 55 inches if you want.
