Jeffrey

While looking through G550 books with Pete found the original contract, Sticker price was \$49,464.00 Since Chevron bought 3 G550's at once, they received a \$4,231,000 incentive price reduction, Certainly confirms it's a \$50M plane. I'll leave the spec book on the GIV,,, has some interesting interior schematics I think you'd enjoy reviewing.
