Paris current weather is 3100 overcast, light rain, 4 mile vis,,, From 8pm to 9pm there is a slight chance for 200 overcast with 6 mile vis,=Europe sometimes puts the worst case scenario in their forecast, since its o=ly a 1 hour time frame, that is 10 hours away,,,, I think we will be fine,,,, but just wanted you aware of their forecast,,,,

The photo below says, 3pm forecast, which is based on NY time,,, so that wou=d be 9pm Paris time, forecast

Thx
