Paris current weather is 3100 overcast, light rain, 4 mile vis,,,

From 8pm to 9pm there is a slight chance for 200 overcast with 6 mile vis, =europe sometimes puts the worst case scenario in their forecast, since its =only a 1 hour time frame, that is 10 hours away,,,

I think we will be fine,,, but just wanted you aware of their forecast,,,=br>

The photo below says, 3pm forecast, which is based on NY time,,, so that wo=ld be 9pm Paris time, forecast

Thx
