Dear [REDACTED]

We went to Mr Eptein's appartment last wee= and made a complete overview of the system.

Before fi=alizing the estimate we would have a few question, could you please transm=t them to Mr
Eptsein.

Music

S=nos system is really the best because it can work wireless. We counted all=the zone where you
already had an audio access keypad. But in some bedroom= there are small hifi systems.

D= you also want to replace them by sonos. Or maybe later ?

D= we use the music stored on you mac (it means it has to be on to listen to=music, or do we propose a
standalone server (1500 €) ?

F=r the speakers, the small JBL that are on the floor in the living room and=office look very small for
those rooms. Would you like us to propose Floor=standing speaker (like B&O, because good sound and good looking)

Since we can't run any new cable we'll try Wir=less HDMI on the new projector. So we will also have to
change : DVD, Rece=ver, Screen (for a 16/9)

We'll use your ipad to control It

No question about the home theatre

Guest =edrooms + Master

Cables be=ween TV and DVD are poor. Impossible to run new cables so 2 options :

1. We change the TV and DVD, but we still use analog cable (it will still =e good quality)
2. <=span>We use wireless HDMI transmitter (approx =000€), I think it worth it for home theatre, but maybe not for guests be=room
3. <=span>We use B&O TV with bluray dvd include=. Yes it is more expensive than other, but more beautiful too. Everything =n one box. Only one remote control. 14000 € / each 40" inches. F=r your bedroom we could go up to 55 inches if you want.
