Subject: LSJ Existing Generators  
To: jeevacation@gmail.com <mailto:jeevacation@gmail.com>

Hey Bossman,

I personally believe that LSJ need 2 New Generators since LSJ is your Main home. I would suggest that we send our existing Generator(s) if salvageable over to GSJ.

LSJ existing Generators are no good because they were running during both Hurricanes with no exhaust flaps (Lots of corrosion, Water, Salt & Sand inside the Generators) the Generator fans were sucking in debris from 250mph winds during 2 Hurricanes

-Generator 1 "Down" (Bryan's electric, Plan B & Danny V. all have different stories about what's wrong with Gen1) only Rimco "Cat Specialist" would be able to actually tell us the truth

-Generator 2 ran for about 2 months straight when Gen 1 went down.

-Generator 2 Radiator blew out on December 26th. Repairs made using parts from Gen 1

-Poor maintenance for about 8 years

For emergency & Safety reasons. I would suggest 2 new Generators for LSJ that we can put on a service contract with Bryan's Deisel.

Ann R.
