To:	Jeffrey Epstein
Subject:	Re: Information for financial support of OpenCog HK project

Jeffrey,

Just re-sending to be sure you got this the first time around... (the financial info you asked for).

I covered the $10K payment myself, so the project continues as it must -- but that was $$ I should have used to pay my 2010 personal
taxes, which remain unpaid ;p ....   So when your generous donation
comes through, I can repay myself for the $10K, i.e. send it to Uncle Sam for my 2010 taxes...

Guess you're still in Africa?

Let me know when you may have the time to chat about AGI, OpenCog, and so forth. Definitely lots to talk about!

My collaboration with Itamar continues as well by the way (separately from the Hong Kong OpenCog AGI project) -- I have a couple students in China working on porting his open-source computer vision system DeSTIN (distinct from his commercial one) to CUDA, a parallel processing language that runs on Nvidia graphics cards. This should enable us to run DeSTIN scalably for robot vision.

thx
ben
