Here is what I meant about Max's letter.

This morning, Noam had a medical appointment (routine). His blood pressure was ideal 120/80 something. After reading Max's e-mail tonight, his face turned red. I waited to let him calm down to check his blood pressure. ♦=A0 And here is the result 148/71. Much higher than it has been for a long time.

I think they should keep their trusts and leave us alone.
