Subject: ACE Enforcment

[REDACTED] just called me. And we had a long discussion. He is en=orcement and they are concerned about the rock jetty off the Northwest side of LSJ (the one we had the issue with a few years ago with CZM) and they want to check a couple of areas around the salt ponds in LSJ. He said his purpose is to clear things up so we can move forward with our permits. C2 He said he just wants to after the fact permit any unpermitted items and he is willing to be creative.

He actually sounds like a pretty reasonable person and he said they cant move forward on your dock permits until we get this straightened out.

=/div>

They are planning to come to St. Thomas on the 29th of this month and they would really like to work with us to clear this up as quickly as possible.

But he does seem reasonable.

Let me know what you think and I am available to talk the rest C2 of today and tomorrow. I'll be underwater on Thursday and probably Friday.
