**Subject:** iMac Pro is setup & ready on 6th

Hello Sir!

I just finish=d setting up the new computer on the 6th floor. It's beautiful and t=e software is all cleaned up and ready to go.

I haven't merged the old 6th & 2nd floor machines yet; I =99ll do that early next week. The old 6th floor iMac is in the basement for=safekeeping for now.

I just discovered the n=w iMac Pros don't have an optical audio port, so I'll need t= find an adapter to use your speakers with it. I'll figure that out=as soon as possible.

Thank you,

<=font>
