Subject: Re: Apple TV on 6th Floor

The Apple TV is back up to full speed (117/=2 Mbps). I used the Apple remote and didn't see any problems. =div>

The kitchen WiFi router was mucking up the internet spee=. Once I'd isolated it, a reboot fixed it.

Merwin is going to run an Ethernet cable in the ceiling, hopefully ge=ting into the network box in the kitchen so this won't happen again=

(I'll be able to broadcast the WiFi=from within the AV stack, eliminate the kitchen router and maybe the printe= one too.)
