Dear Jeffrey,

<=div>

I wanted to update you on our placebo initiative at Harvard. I've been asked to start a Harvard-wide Program in Placebo Studies which=will be hosted at the Beth Israel Deaconess Medical Center. It will do=basic, clinical and social science research as well as scholarly work in placebo studies. We are situated in all the major teaching hospitals at Harvard and have already drawn commitments from over 20 faculty. Anne Harrington will be joining us. We recently published an physiological study of placebo in the New England Journal of Medicine and a theoretical paper in Philosophic Transactions of the Roy Soc B. (I'm attaching fy=). We anticipate making some major breakthroughs in genetic of placebo=effects (we're submitting our findings in the next days) and have major studies in the pipeline. We're hoping that this program will establish Placebo Studies as a important component of medical research inter=ationally. Here is our new website: www.programinplacebostudies.org
<<http://www.programinplacebostudies.org/>> . =AOLet me know if this is of any interest for you.

Sincerely,

Ted

Woody, Thank you for the introduction.<=iv>

Jeffrey, Whenever you'd like to talk....i talk placebo mos= of the time....tell me.

All my work and the work of my laborato=y is about placebo effects and we use a multi-disciplinary approach: basic,=clinical and social science and collaborate with the humanities (history, =thics, etc.)

We published in these areas and have some exciting studies in the pipe=ine.

We can start with a phone call or whatever.

Your call.

best

Jeffrey and Ted,

This is an introduction of the two of you to eac= other. I think you will have a very stimulating, exciting dialogue. I hav= spoken with each of you about the other.

Jeffrey,

Ted=Kaptchuk is a deeply philosophical scientist. Placebo research has been hi= special interest for a decade (and Chinese Medicine before that--in addit=on I am sure to many others). He is actually in the process now of setting=up a placebo research center at Harvard--where he has been on the faculty =or > 10 years, principally affiliated with their Osher Center for Res=arch in Complementary and Alternative Medicine. He wrote a wonderful boo=, The Web That Has No Weaver, about trad Chinese med=cine, as the 2nd practitioner to visit China after the thaw in the 70s. He=can send you studies, etc. if you would like.

Ted,

Jeffrey is a very successful investor. But the reason=I am recommending he talk with you is that he has a brilliant scientifi= mind, is very interested in research and recently he has taken a keen int=rest in some far-reaching questions about the implications of the placebo =esponse. (partly stemming out of his surprise that i would believe in an= use homeopathy)

I think the two of you will enjoy each other's minds, and possib=y come up with some very interesting ideas for future research.

Best,

Woody
