The \$11MM in total consideration is an EXTREMELY low valuation for this company, and frankly already takes into consideration the legal risks that exist with the company.

I have absolutely no idea how you can call \$8MM in upfront payment high. There are those in our company that do not want any tail and do not want to take any further legal risk. I am fine with what I proposed yesterday which is \$8MM at close and \$300 per year for the first two years, and \$800K per year for the last three years.

Let me know if that works for you. To be very clear, we will not accept anything less than that in terms of up front payment, nor in terms of a more delayed 5 year pay out, nor in terms of total consideration.

Let me know if you want to do this deal on those terms.

neale,

to make it simple i suggest: 200 400 600 800 1mm as the =ive year pay out.
if this ok, can you have your team start =rafting.

neale.

we had a good call with Rachel and thank you for your offer..

1 as discussed the tail payments should be five years rather than three as it requires a final determination of liability AFTER appeal..

2 i think it =n everyones interest to try to close this year as the foreign, inbound =nd outbound become more complex in 2018.

3 if we can =et a call and you can suggest an interest rate on the tail payments we =an discuss economics.

4 we are =lose and would rely on your team to put together the documents for =aith and joels review.

5 millie is =till there :)
