Jeffrey,

Morrison told me yesterday that his old GIV that Don Burns sold may come back on market, current owner can't afford it,. he also told me that company that owns RockStar power drink out of LAX is interested in purchasing and maybe in prebuy at Gulfstream in PBI,. Don Bass's office said the GIV was not on the market but indicated the owner is interested in selling,. Morrison told me it was in prebuy for 7.7M  
do you think Steve Hansen is interested still? Bass sold for 8.1M in April,.

just info  
thx
