Figuring out:=/div>

1. Criteria for projects
2. Advis=ry board
3. Right legal structure
4. How much ph=lanthropist should talk to scientist over the website

Any thoughts about all that?

I've talked to a number of scientists about Satio. I realized that m=ny of them are tremendously depending from universities and hate that. =A0

Liberating scientists from bureaucracies might=be a good message for that... it's a very long-term goal but feels lik= a right direction following general gig economy trend where you less depe=ds on organizations.

We're already vide=shooting some scientists to play with right format to present their projec=s.

Anyone in Boston that I should meet while I'm here this week? Jo=/his assistants haven't been responding.

Meeting Joscha, Lukin, some other quantum physicists.

I put together Satio deck (it's how I named 'kickstarter for scienc=' project) - attached.

Looking for two types of people right now:

- scientists/projects to fund (really cool and unique and searching for fin=ncing). Have a few in pipeline, creating a funnel;

- potential advisors to select and curate best projects (established scient=sts able to say yes/know on projects sourced).

Attached is more info.

It's really early, lots of things to figure out but I thought you might=have some ideas about whom to meet.

Masha
