Good afternoon Mr Epstein. I am a customer delivery executive with product support and was asked to help with your aircraft. You have recently requested some additional items while the aircraft is here and we are currently working on those. In order to better support you, we would like to meet and go over available options for your aircraft. This would allow us to make sure we meet your expectations. Could we meet next week in Palm Beach? Best regards.

Elie Barreto

Customer Delivery Executive
