**Subject:** LSJ updates

barge will probably go in for service week of Dec 18th (bosco believes it will be down for 4 weeks +) i am trying to arrange insurance adjustor to inspect all damage while out of water at subbase

generators - had a nice call with technician Randy yesterday from Plan B who is very competent

-> generators are 7+ years old and can both be fixed we are expecting =

-> summary report early next week along with estimate of parts and labor

-> costs to fix

(parts verbally roughly speaking was \$0k per randy) - units are not compromised as anna originally explained randy said terrible maintenance and neglect over the years is evident and believes these machines can last 4 more years once fixed

-> cost of both units in 2010 was approximately 300,000+ i asked andy

-> to propose a service contract to look after generators (and maybe

-> other machinery) 1-2x per month as danny has proved unable randy

-> will also source, install, service and warranty a new generator for

-> GSJ

unsure of roads? jeffers??
