Subject: G550 IphoneX charger

Jeffrey,

Heather informs that Gulfstream will not be able to install the IphoneX charging base in the Drink ledge by your VIP seat,.

for Gulfstream to install, it has to go through a rigorous certification process which is costly and time consuming,.

Heather recommends Eric install the Iphone charger base.

also, Gulfstream will not install Eric's new design Divan end caps, we will have to fly to Islip to have Eric install these as well.

thx
Larry
