GBPJPY @ 151.90

3 month forward at 151.60

3 month 154.00 Call costs around 1.30%

Or I like the idea of selling a 6 month 148.00 Put a=d buying a 154.00 Call (roughly cashless). Gives us a small cushion on the=downside.

Charts below.

July WTI @ 56.86

Jul (expires June) \$65 Calls cost 62c

Jul (expires June) \$70 Calls cost 25c

* I prefer the \$65 strikes
