great new years present. . thought= 1. hope. ? it is not backed by =ny evidence in first order. but second order attributes abound. =A0 livng longer etc. . internal =enefit to many if not most. . 2. it is a for= of self deception that carries an evolutionary advantage if modulated. =A0 . ie cant hope to fly. maybe modula=es or allows the system to call in reserves. . 3. the ttheory =hat we are more advanced thinkers than the past . seems like todays =xceptionalism. . in ancient times one had to know many t=ings, as cities grew. specialised knowledgt made the group more=effecient but potentially at the expense of the individuals breadth of kno=ledge. 4. I believe that teaching every person to write is har=ful to some individuals. writing slows down the thinking=and forces a rule based system onto complex definitions. and speed r=duction. asperbergers could be an advantagea as we=l as some form of writing disability. . 5.
