Subject: Re: GSJ Solar

were we able to move up the date for wapa?

On Tue, Dec 5, 2017 at 5:36 PM, Richard Kahn <[REDACTED]> <[REDACTED]> > wrote=

140=of 147 panels were installed as of 11-28-2017
all inverters are up and=running
new racking, conduit and wiring completed

=/div>

main issue currently is the multicluster box
we had 2 =nd 1 was damaged from storms
pro solar tried to fix while onsite=yet was unable to
last week i have authorized prosolar to order = new box which takes 4-6 weeks as they are custom made
cost is a=proximately 15k
once that box is installed we will be at f=ll capacity of 36kw
currently we have 18kw which is suffic=ent to run 9 ac units at once at they draw 1-2kw each but insufficient to
=un old RO that currently does not work..

gen=rator is not needed to charge batteries however it is necessary when we ha=e cloudy days..

pro solar is also trying to=source a new generator for us and we need an RO solution (i still like con=ainerized
units 250-300k depending on size)
pro solar presented = generator option a few weeks ago however that unit was restricted to BVI =nd could not
be sold to USVI

generator and ro are=next key items to get into place..

jimmy so far has been unhelpf=l with this and i have no trust in danny who i think is the main cause of =he
generator / ro issues on LSJ..

i asked hugo ho=ge for a recommendation today of someone who can oversee our plant / elect=ic / etc..
