Is it a bad idea to limit the&nbs=;access to only who is over \$1B wealth? I've noted that it's different how m=llioners and billionaires support science/non-profits. Millioners usually try=ng to make it bring some profit to their business, billionaires - not </=iv>

Anyone in Boston that I sho=ld meet while I'm here this week? Joi/his assistants haven't been respondin=.

Meeting Joscha, Lukin, some other quantum physicists.

I put together Satio deck (it's how I named 'kickstarter for science' projec=) - attached.

Looking for two types of people right now:

- scientists/projects to fund (really cool and unique and searching for fina=cing). Have a few in pipeline, creating a funnel;

- potential advisors to select and curate best projects (established scientists able to say yes/know on projects sourced).

Attached is more info.

It's really early, lots of things to figure out but I thought you might have some ideas about whom to meet.

Masha
