Do you need to do a "security study" to require private plane travel?

Executives are compensated in part based on performance of AAPL in comparison to the S&P 500.

Another interesting detail from Apple's proxy statement filing is that Tim Cook is now required to fly on private aircraft. This policy was implemented in 2017 and applies to Cook's business related and personal travel. Apple's board of directors made the call and says the policy is "in the interests of security and efficiency based on our global profile and the highly visible nature of Mr. Cook's role as CEO."
