Good night boss

I have approach Ubiquiti network solutions (they are based in New York) to quote me th=ir recommendation for equipment for the wifi grid for the island along with=their for an installer or a possible consultant that would provide me the n=ecessary training to handle the installation in house.

=/div>

I choose them because it is their equipment that hector and Listo= has used in getting service back online.

Good day B=ss

Submerged Wapa/Fiber:

-I have line up Listo= Network crew to assist in handling the removal of the fiber cable from the=existing manhole to the new manhole once the new manhole is ready.

-Hector of VIYA is inquiring from is superiors as to when they will s=art on repairing the VINGN cable that connects to our fiber.

=/div>

Communications:

The telco side of VIYA will not be in o=eration on St. Thomas for at least another 4 to 6 months. I am looking in t= a VOiP System (using the internet vs actual phone lines) that will integra=e with the existing digital system to restore telephone service for LSJ .<=/iv>

Internet over all

-I am still waiting on the 3 vendors for quotes to replace LSJ WiFi grid.

-Areas that don't have internet due to fiber damage (ie Flagpole pool) will be set up with a wireless bridge to bring them back online.

Cecile will assist me in putting pressure on some of the vendors to get things moving in a forward direction.

Regards

Juan
