Good n=ght boss

I have approach Ubiquiti network solutions (they are base= in New York) to quote me their recommendation for equipment for the wifi =rid for the island along with their for an installer or a possible consult=nt that would provide me the necessary training to handle the installation=in house.

I choose them because it is thei= equipment that hector and Liston has used in getting service back o=line.

Submerged Wapa/Fiber:

-I have line =p Liston Network crew to assist in handling the removal of the fiber cable=from the existing manhole to the new manhole once the new manhole is ready=

-Hector of VIYA is inquiring from is superiors as to when=they will start on repairing the VINGN cable that connects to our fiber.</=iv>

Communications:

The telco side of VIYA will not be in operation on St. Thomas for at least another 4 to 6 months. I am looking in to a VOIP System (using the internet vs actual phone lines) that will integrate with the existing digital system to restore telephone service for LSJ .

Internet over all

-I am still waiting on the 3 vendors for quotes to replace LSJ WiFi grid. </=iv>

-Areas that don't have internet due to fiber damage (ie Flagpole pool) will be set up with a wireless bridge to bring them back online.</=iv>

Cecile will assist me in putting pressure on some of the vendors to get things moving in a forward direction.

</=iv>
