66 years later!

What happened to the radiation that lasts thousands of years?

HIROSHIMA 1945

We all know that Hiroshima and Nagasaki were destroyed in August 1945 after the explosion of atomic bombs. However, we know little about the progress made by the people of that land during the past 65 years.

HIROSHIMA - 65 YEARS LATER

DETROIT- 65 YEARS AFTER HIROSHIMA

What has caused more long term destruction - the A-bomb, or Government welfare programs created to buy the votes of those who want someone to take care of them?

Japan does not have a welfare system.
