So he calls me two days before i le=ve Jamaica and says he had watched my whole Honour Killing talk and was ta=en by its mathematical logic and the host of research it invited—e=actly how fast do r's rise as a function of percent cousin marriages? =ow would clan intercaste linkage analysis help explain the Hindu case et a=

he was eager to discuss with me in April a deepe= relationship with Chapman including teaching, i.e. a jump from 20 grand a=year to 100 or more

so i played your card and sai= that i was really taken by Chapman (which I am) and i had a friend who sa=d that if i ever got an offer worth considering he would match it (your 80=20 split of 100)

well he liked the sound of that =

this is supp=sed to be best wishes to you and instead it is all about me—but af=er all i know very little of your mental life except that its calming infl=ence has left me $160,000 richer than a year ago
