Jeffrey

am here in Ft Lauderdale until Friday enjoying the company =f my 18 year old son—the US Army has made a man out of him in 3 sh=rt months

called a couple of times and wanted to wish y=u a happy new year and thank you for your warm support

i have solved the problem of Honour Killings, at least in outline, an= i intend to produce a short book while also spreading it on the internet=E2��a film made in Barcelona, trimmed to less than an hour should arri=e when the Spanish get back to work after Christmas—perhaps mid-Ja=uary? Your support backed all of this

i fly=out to Chapman University in Orange County LA for a week in April

i was there this November as a Presidential Fellow�=94the President is in fact a very agreeable Italian mathematician of real =alent:

Dr. Struppa is the author of more than 200 refereed publication=, and he is the editor of several volumes. He has edited or co-authored mo=e than ten books, including Bicomplex Holomorphic Functions (2015), Regular Functions of a Quatern=onic Variable�=A0(2013), Noncommutative Functional Calculus: Theory and Applications of Sl=ce Hyperholomorphic Functions (2011), Analysis of Dirac Systems and Computational Algebra (2004), <=span>Fundamentals=of Algebraic Microlocal Analysis (1999), and The Fundamental Principle for Systems of Convol=tion Equations=C2�(1983).

So he calls me=two days before i leave Jamaica and says he had watched my whole Honour Ki=ling talk and was taken by its mathematical logic and the host of research=it invited—exactly how fast do r's rise as a function of perce=t cousin marriages? how would clan intercaste linkage analysis help explai= the Hindu case et al

he was eager to discuss wit= me in April a deeper relationship with Chapman including teaching, i.e. a=jump from 20 grand a year to 100 or more

so i pla=ed your card and said that i was really taken by Chapman (which I am) and = had a friend who said that if i ever got an offer worth considering he wo=ld match it (your 80/20 split of 100)

well he lik=d the sound of that !

so i plan to reverse it wit= him this April—and have HIM match YOU—50 more in research=funds, e.g. to do the genetics of both elite sprinters and the West Africa= populations from which they sprang (5 individuals for 5 countries should =o the trick) and your funds can't support that work

this is supposed to be best wishes to you and instead it is all abou= me—but after all i know very little of your mental life except th=t its calming influence has left me $160,000 richer than a year ago
<=iv>

warmest best

bob
