**Subject:** Bell 430 stripes

Jeffrey,

here are photos of the 8 different blacks for striping of Bell 430,. There is no rush on your decision, I would prefer that you look at the samples in=20 person, I will bring with me to NY. I have an 12" high gloss sample that matches the current high gloss black on the fuselage of helicopter to use as a base to compare stripes against. These photos are no= a good example of the choices of satin, flat or high gloss finishes.
