Jeffrey,,

We are still working on design of arm rest,. today's inspection of arm rest was unacceptable and needs more engineering with pivot point,.

would you accept the SatPhone location in center drawer under middle seat of fwd facing divan,. There is an existing small drawer that is a perfect fit for satphone, you mentioned low utilization of satphone,, if this is OK, we can design a smaller Lincoln type arm rest,.

if necessary , can I locate the satphone under middle seat next to your VIP seat?

thank you,  
Larry

This photo shows the two mounting points for arm rest,,, the challenge we are facing is the fact that both seat backs and cushions are movable and track fwd and aft, this makes mounting a simple Lincoln type arm rest difficult since our mounting points cannot be the sides of the seat backs like in a car design,

This was first attempt at arm rest,. a mess !!
