am here in Ft Lauderdale until Friday enjoying=the company of my 18 year old son—the US Army has made a man out o= him in 3 short months

support called a couple of times and wan=ed to wish you a happy new year and thank you for your warm

<=iv>

i have solved the problem of Honour Killings, at least i= outline, and i intend to produce a short book while also spreading it on =he internet—a film made in Barcelona, trimmed to less than an hour=should arrive when the Spanish get back to work after Christmas—pe=haps mid-January? Your support backed all of this

i fly out to Chapman University in Orange County LA for a week in Ap=il

i was there this November as a Presidential Fe=low—the President is in fact a very agreeable Italian mathematicia= of real talent:

Dr. Struppa is the author of more than 200 refereed p=ublications, and he is the editor of several volumes. He has edited or co-a=thored more than ten books, including Bicomplex Holomorphic Functions (2015), Regular Functions of= a Quaternionic Variable (2013), Noncommutative Functional Calculus: Theory and Applicat=ions of Slice Hyperholomorphic Functions (2011), Analysis of Dirac Systems and Computational =lgebra (200=), Fu=damamentals of Algebraic Microlocal Analysis (1999), and The Fundamental Principle for Systems=of Convolution Equations (1983).

So he =alls me two days before i leave Jamaica and says he had watched my whole H=nour Killing talk and was taken by its mathematical logic and the host of =research it invited—exactly how fast do r's rise as a function =f percent cousin marriages? how would clan intercaste linkage analysis hel= explain the Hindu case et al

he was eager to dis=uss with me in April a deeper relationship with Chapman including teaching= i.e. a jump from 20 grand a year to 100 or more

=o i played your card and said that i was really taken by Chapman (which I =m) and i had a friend who said that if i ever got an offer worth consideri=g he would match it (your 80/20 split of 100)

wel= he liked the sound of that !

so i plan to revers= it with him this April—and have HIM match YOU—50 more in =esearch funds, e.g. to do the genetics of both elite sprinters and the Wes= African populations from which they sprang (5 individuals for 5 countries=should do the trick) and your funds can't support that work

=br>

this is supposed to be best wishes to you and instead it is =ll about me—but after all i know very little of your mental life e=cept that its calming influence has left me \$160,000 richer than a year ag=

warmest best

bob

<=iv>

p.s. please warn me if i should convert all of my stocks=to cash
