No, our statements do not include contracts/work provided by 318 t=chnology. They were paid directly by you.

They ga=e us a wiring plan and provided the wire/materials we needed to have our e=lectrician install the wiring according to the plan. When we are in t=e final phase, they will provide the switches for us to install. The= are also providing the materials & programming for the Lutron Radio R= System and motorized shades. They do not provide electrical =iring work. They have been to the site periodically to ensure that =he wire installation work meets their expectation.

You can clarify this with Homero Perez.
